BREAKING NEWS

EuroBent Press Release – 'MOTION BY CONCRETE CANVAS FOR PRELIMINARY INJUNCTION FINALLY DISMISSED'
https://cloud.excelplas.com/s/fDRZ592emmjhkBc#pdfviewer

On 12 January 2021 the Regional Court in Warsaw (Poland) dismissed the motion by Concrete Canvas Technology Ltd. to issue a preliminary injunction to secure a claim concerning alleged infringement of patent PL/EP 2027319 by Eurobent sp. z o.o. By issuing that judgement, the Regional Court in Warsaw overturned a preliminary injunction which was granted on 6 August 2020 on the basis of one-sided presentation of facts and law by Concrete Canvas Technology Ltd.

The Judgement of 12th January 2021 is final and there are no further means of appeal in this matter.

The judgement finally proves, that there were no grounds to grant Concrete Canvas Technology Ltd. the security for the claims based on the allegation of infringement of patent PL/EP 2027319 by Eurobent sp. z o.o. through manufacturing TiltexTM products. Dismissal of motion for preliminary injunction means, that the court has found that the underlying claim is not even prima facie probable and/or the claimant lacks legal interest to secure the claim. The decision of 12 January 2021 thus entirely undermines all allegations of illegal conduct by Eurobent sp. z o.o. baselessly disseminated by Concrete Canvas, in particular in the press release of Concrete Canvas Technology Ltd of 26 August 2020.

GNA Provides a Glimpse at the Latest Products and Innovations Entering the

Geosynthetics Market Today
GNA helping you identify trends, drivers, and barriers in the geosynthetics space

Stay Up to Date with the Latest Geosynthetic News by Signing Up for the GNA Newsletter!
https://www.geosyntheticnews.com.au/subscribe/

• GNA now has +30,000 views per month
• Articles published on GNA get thousands of views and are distributed widely through 3rd Party Affiliates
• GNA is now the most read source of Breaking News on Geosynthetics Worldwide
• Since GNA is published up to 12 times per month, no other source of Geosynthetic Industry News comes close to being as current and up-to-date
• In 2017 we have increased readership by 10,000+ though India, Africa and Asia
• Special Advertising Packages Available for Geosynthetic Manufacturers, Installers, and Service Providers.

ExcelPlas Geosynthetics Testing Expands Geosynthetic Testing Offerings
ExcelPlas now performs more than 120 standard geosynthetic tests in accordance with relevant ASTM, GRI and ISO standards.
We have extensive experience with all types of geosynthetics - from geomembranes (HDPE, LLDPE, fPP), geotextiles to geonets, geogrids, geocomposites and and geosynthetic clay liners (GCLs).
As a Nationally Accredited Testing Laboratory, our technicians, equipment and quality system are monitored regularly for proficiency and compliance assuring that you can count on quality results every time.

Geosynthetic News Alerts - Your Global Source of Geosynthetic News and Technology. Current and Updated!

Among GNA's objectives are:

- To promote and educate on the development of specifications and practices that help ensure the proper use of geosynthetics.
- To locate, interpret and disseminate new scientific research to manufacturers and users of geosynthetic materials.
- To enhance the knowledge and awareness of contemporary geosynthetic technologies amongst specifiers, users and installers.

GNA – World's Leading Source of Breaking News on Geomembranes, Geotextiles and other Geosynthetics

This Newsletter is brought to you by ExcelPlas Labs Australia's Largest group of Geosynthetics Testing Labs.
http://www.excelplas.com/

GNA is currently sent to over 7500 Geosynthetic Industry Members Globally every week.
