This Newsletter is Brought to you by ExcelPlas Labs – Australia's Largest NATA Accredited Geosynthetics Testing Labs.

ExcelPlas Labs offer an unrivalled testing service of Geosynthetic Barriers, both polymeric (geomembranes) and geocomposite (geosynthetic clay liners and geosynthetic cementitious liners), to manufacturers, consulting engineers, installers and landfill operators among others. We are able to perform a wide range of mechanical, durability and analytical tests. The tests are coordinated and carried out by our qualified technical staff.

ExcelPlas is Australia's leading laboratory for testing geosynthetic materials and was the first laboratory here to be NATA accredited for many geosynthetic tests. Excelplas holds accreditation to ISO 17025 for an extensive range of geosynthetic tests, and offers opinions and interpretations.

This Newsletter is brought to you by Excelplas Labs, Australia's Largest group of Geomembrane Testing Labs.

Geosynthetic News Australia (GNA) is now Australia's most current and comprehensive source of news on Geomembranes and other Geosynthetics;

GNA is now sent to over 6500 Geosynthetic Industry Members every week.

Any news or subscription requests should be sent to john@excelplas.com
