October 2014 Vol.1

Author : GNA

1. ***JOB*** Senior Geomembrane Projects Supervisor/Training & Development Coordinator required for Jaylon Victoria
2. Conditioning Monitoring of Reinforced Polypropylene Floating Covers - Why and How do RPP Covers Degrade
   Is my cover still safe to walk on?
3. Geosynthetic Mining Solutions at Copper Tailings Dams: A Review of the State of Practice in Chile
4. Ensure Your Geomembrane Seam Laps are Contamination Free Before Welding (Large ISO Wipes)
5. Geosynthetics Society Bestows Highest Honor on Engineering Professor for Geocell Work
6. Advantages of Bituminous Geomembranes (BGM) Revealed
   BGM have advantages in terms of withstanding wind effects, having no stringent base layer requirement, being useable on rough subgrade, and decreasing construction times and the quantity of borrowed/imported subgrade materials required.
7. Geoinventions Brisbane obtains CQA Certification for Geosynthetic Materials and Compacted Clay Liner
   Joas Christofan CPEng NPER RPEQ Awarded CQA Certificate by GRI
8. Geoinventions - Geotechnical Engineering Consultants - Brisbane - Recent Projects
9. ***JOB*** Fabtech seeking HDPE Geomembrane Welding Technicians / Senior Installers
10. WatershedGeo Utilizes Its Patented HydroTurf Advanced Revetment Technology to Close EPA Superfund Site - George Air Force Base LF-14 Landfill
11. Geogrid Awarded the Environmental Product Declaration for the First Time
12. Puraflex chosen due to its chemical resistant properties and ease of installation
13. Maccaferri Australia - Free Pavement Seminars on Subgrade and Asphalt Reinforcement
14. Are You Searching For a Customized Tank Cover?
15. Mechanical behavior of interface between composite geomembrane and permeable cushion material
16. Temporary stockpiles of dredged sediment are covered with a white geomembrane
