INDUSTRY NEWS

The Rise of BGMs: A Decade of Transformation in Geomembrane Industry (Special Feature)

Swiss Publish Comprehensive Review on Geomembrane Systems Application in Hydropower

The Geotextile Dilemma [PDF]

Geotextile Tubes Dewatering Dredged Mud from Turkey's Izmit Bay

Propex Patent Brace Assembly for A Geosynthetic Wrapped System Used to Construct Stabilized Earth Walls and Slopes

NAUE Case Study – Bentofix® X and Secutex® Used for Base Lining System in Dam Rehabilitation in Indonesia

NAUE Case Study - Secutex® Soft Rock for Seabed Scour Remediation

Tensar Appoints Chris Buchanan as its Vice President and General Manager for Europe, UK and Ireland

Geomembrane Applications in Wastewater Collection and Equalization, and Primary Treatment

GEOMEMBRANES

Test Method and Strain Calculation Effects on Geomembrane Strain from Gravel Indentations

BGMs

Feedback From the Bituminous Geomembrane (BGM) Implemented 20 Years Ago at The Galaube Dam [PDF]

Bituminous Geomembranes Used for Waterproofing in Various Transport Applications [PDF]

Advanced Application of Bituminous Geomembrane (BGM) For Waste Capping in Australia [PDF]

Bituminous Geomembranes (BGM) To Reduce Water Losses in Irrigation Canals [PDF]

BGM Testing Program for Use in Heap Leach Pads [PDF]

Innovative Designs for Extreme Mining Applications Using Bituminous Geomembranes [PDF]

Bituminous Geomembrane: Successful Alternative of Distressed Concrete Canal Lining Built Over Expansive Clays [PDF]

GEOTEXTILES

Effect of Geosynthetics on Swell Reduction During an Extreme Rainfall Event

Comparison of Mechanical Performance of Different Geotextiles Manufactured from Natural Fibres Subjected to Environmental Biodegradation

GEOTEXTILE TUBES

Morphological Performance of Vegetated and Non-Vegetated Coastal Dunes with Rocky and Geotextile Tube Cores under Storm Conditions

GEOCELLS

Laboratory Evaluation of Marginal and Industrial Waste Material in Geocell-Reinforced Pavements under Cyclic Loading

GEOGRIDS

Numerical Modelling and Predicting Performance of Geogrid-Reinforced Low-Volume Unpaved Roads over Soft Subgrades

Stress–Dilatancy and Critical-State Behaviour of Geogrid-Reinforced Recycled Waste Materials

The Case for True Probabilistic Internal Stability Design of Geosynthetic MSE Walls

GEOSYNTHETIC DIGITAL MARKETING

Essential Look into Global Geosynthetic Developments with the Weekly GNA Newsletter
GNA connects engineers, regulators, facility owners, and other stakeholders around the world to its readers and advertising participants.
GNA's global audience of tens of thousands of subscribers includes civil engineers, regulators, contractors, geosynthetic installers, CQA professionals, and facility owners involved with geotechnical applications.
GNA is a digital news communications and technology platform focused on digital publishing and delivering breaking geosynthetics news relevant to environmental engineering for the geotechnical and geo-environmental community.
Be in the know with an essential look into global geosynthetic developments with our weekly GNA newsletter.
https://www.geosyntheticnews.com.au/

How to Get Noticed by More Than 48,000 People in the Geosynthetic Space Across the Globe
GNA reaches over 48,000 people each month and this high level of audience engagement comes from years of creating content that matters to the geosynthetic industry.

We provide the industry's most reliable and current information and have the trust and attention of the leaders and decision-makers.
Not only can we help you get in front of our highly engaged audience, but we also have a number of channels you can use to target your message – as well as the subject matter experts to put it all together.

Stay Up to Date with the Latest Geosynthetic News by Signing Up for the GNA Newsletter!
https://www.geosyntheticnews.com.au/subscribe/

• GNA now has +30,000 views per month
• Articles published on GNA get thousands of views and are distributed widely through 3rd Party Affiliates
• GNA is now the most read source of Breaking News on Geosynthetics Worldwide
• Since GNA is published up to 12 times per month, no other source of Geosynthetic Industry News comes close to being as current and up-to-date
• In 2017 we have increased readership by 10,000+ through India, Africa, and Asia
• Special Advertising Packages Available for Geosynthetic Manufacturers, Installers, and Service Providers.

ExcelPlas Geosynthetics Testing Expands Geosynthetic Testing Offerings
ExcelPlas now performs more than 120 standard geosynthetic tests in accordance with relevant ASTM, GRI, and ISO standards.
We have extensive experience with all types of geosynthetics - from geomembranes (HDPE, LLDPE, fPP), geotextiles to geonets, geogrids, geocomposites, and geosynthetic clay liners (GCLs).

As a Nationally Accredited Testing Laboratory, our technicians, equipment, and quality system are monitored regularly for proficiency and compliance assuring that you can count on quality results every time.

Geosynthetic News Alerts - Your Global Source of Geosynthetic News and Technology. Current and Updated!
http://www.geosyntheticnews.com.au

Among GNA's objectives are:

- To promote and educate on the development of specifications and practices that help ensure the proper use of geosynthetics.
- To locate, interpret and disseminate new scientific research to manufacturers and users of geosynthetic materials.
- To enhance the knowledge and awareness of contemporary geosynthetic technologies amongst specifiers, users, and installers.

GNA – World's Leading Source of Breaking News on Geomembranes, Geotextiles, and other Geosynthetics

This Newsletter is brought to you by ExcelPlas Labs Australia's Largest group of Geosynthetics Testing Labs.
http://www.excelplas.com/

GNA is currently sent to over 7500 Geosynthetic Industry Members Globally every week.
Any news requests should be sent to john@excelplas.com
